Achmea Mortgages becomes part of Achmea Investment Management

Zeist, 23 April 2026 – Achmea intends to provide its institutional clients with a single, integrated touchpoint for investment advisory, asset management services, and investment opportunities in Dutch residential mortgages. This will offer clients greater clarity, simplifies governance and creates synergies and growth opportunities. In practice, this means that Achmea Mortgage Funds will be legally merged with Achmea Investment Management.

Achmea Investment Management serves more than fifty large institutional clients in the areas of asset management and investment advisory. Achmea Mortgage Funds (trading name: Achmea Mortgages) also serves more than fifty institutional clients and offers this client base a broad range of investment opportunities in Dutch residential mortgages.

Following the legal merger, the activities of Achmea Mortgages (39 employees) will form part of Achmea Investment Management, where Achmea Mortgages' expertise will be deployed to serve clients more broadly with alternative fixed income solutions. The legal entity Achmea Mortgage Funds will cease to exist.

Maureen Schlejen, divisional chair of Achmea Investment Management: "The integration of Achmea Mortgages into Achmea Investment Management aligns with Achmea IM's broader platform strategy. By combining expertise, we are creating a scalable platform for alternative fixed income solutions. In doing so, we are capitalizing on the growing demand from institutional clients for stable, transparent and high-quality solutions within fixed income, while creating targeted growth opportunities within this segment."

The legal merger is expected to take place in the second half of 2026 and remains subject to regulatory approval and a positive opinion from the works council.

About Achmea Mortgages

As the first mortgage asset management company in the Netherlands, [Achmea Mortgages](#) has a long track record, built on innovation, trust and a vast understanding of the Dutch mortgage landscape. We have successfully managed our portfolios through multiple market cycles, whilst keeping the interest of our investors and homeowners in mind. Our foundation, deeply rooted in the history of Dutch pension funds, has positioned us as pioneers in mortgage asset management. We have been managing our flagship mutual mortgage fund PVF Particuliere Hypothekenfonds since 1997 on behalf of over 50 institutional investors. Our commitment extends beyond financial transactions; we believe in the long-term connection between investors and homeowners.

About Achmea Investment Management

[Achmea Investment Management](#) is the leading Dutch specialist in fiduciary management and impact investing. By combining our Dutch roots, cooperative identity and vision for the future, we aim to provide more than purely financial solutions; together with our customers, we strive to accelerate the transition to a sustainable society. Working on this goal also helps us work towards our mission: more capital for retirement in a better world. With more than 400 passionate employees, we manage assets of € 227 billion on behalf of our customers (as of 31 December 2025).
