Achmea publishes integrated annual report 2019

Zeist, 28 April 2020 – Today, Achmea publishes its integrated annual report for 2019, offering an insight into our financial and social results. The report provides a comprehensive overview of our organisation, making it a valuable document for a wide target group, including customers, employees, partners and investors.

During the Annual General Meeting of Shareholders (AGM) held today, the financial statements were adopted and the members of the Executive Board and Supervisory Board were discharged from liability for their actions. Additionally, and in line with our previously communicated statement regarding the postponement of dividend distribution to shareholders, it was decided to add the 2019 profits to the reserves.

Integrated annual report in three parts

Achmea's integrated annual report is divided into three parts. Part 1 (annual review) addresses our strategy, the progress made in 2019 and our vision for the future. Part 2 (annual report) deals with the significant financial developments and includes the directors' report, the financial statements, the report of the Supervisory Board and reports on our corporate governance and risk management. Part 3 includes more detailed information on sustainability.

Today, Achmea also publishes the SFCR 2019 (Solvency and Financial Condition Report). This report offers an overview of our financial position based on the Solvency II Directive. All the aforementioned documents can be downloaded via <https://www.achmea.nl/en/investors/publications>
